

YASHA EDUCATIONAL TRUST

Student Learning & Engagement Platform

An enterprise K-10 ecosystem delivering structured academics, comprehensive career guidance, and systematic student counselling support.

Multi-Stakeholder User Ecosystem

Students

Core learners accessing targeted academic curriculum, specialized career pathway tools, and qualified mentor channels.

Parents

Track children's progressive learning timelines, review sessions, and manage selective partner school admissions.

Trainers & Experts

Facilitate virtual instruction, respond to critical student text desks, and manage focused academic counselling queues.

System Administrators

Command operational dashboards, secure master database instances, and audit multi-district engagement metrics.

YASHA

Student Onboarding Protocol

Comprehensive Student Onboarding

Onboarding Dimension	Data Fields Captured & System Integration Strategy
Demographic & Primary Profile	Full Name, Date of Birth, Gender Identification, Core Guardian Contacts, Location (District & Taluk)
Institutional Alignment	Target Grade Tier (9th/10th), Board Affiliation (State vs. CBSE), Affiliated Secondary School Registry
Guardian Parameters	Primary Parent/Guardian Name, Secondary Mobile Verification, Occupational context for aid programs
Aspirational Mapping	Initial academic tracking indicators (Medical, Engineering, Commerce, Undecided Pathways)

School & District Governance

Institutional Registry

Secure administrative registry tracking affiliated schools. Captures master parameters such as location records, principal authorization codes, and dedicated coordinating contacts to ensure operational continuity.

Dynamic Registration Analysis

Consolidated data tracking that powers real-time overviews of active signups per regional district, specific grade distributions, and targeted school interest in emerging career streams.

| Integrated Learning Management

Curated Video Lessons

Syllabus-aligned video classes categorized comprehensively for Mathematics and Sciences (Physics, Chemistry, Biology) with board filters.

Structured Study Content

Premium printable learning assets containing detailed worksheets, reference guides, and practice tests accessible offline.

Smart Discovery System

Instant keyword search parameters and dynamic filter rules designed to deliver highly accurate study resources on demand.

Live Interactions & Guidance

Virtual Classrooms

- ✓ Standard API integration for Google Meet and Zoom.
- ✓ Automated monitoring of student session duration.
- ✓ Integrated interactive system calendars and alerts.

24/7 Expert Help Desk

- ✓ Direct text lines connecting students to verified advisors.
- ✓ Live notifications dispatched to active advisor dashboards.
- ✓ Specialized personal growth and admissions counsel.

| Admissions & Counselling

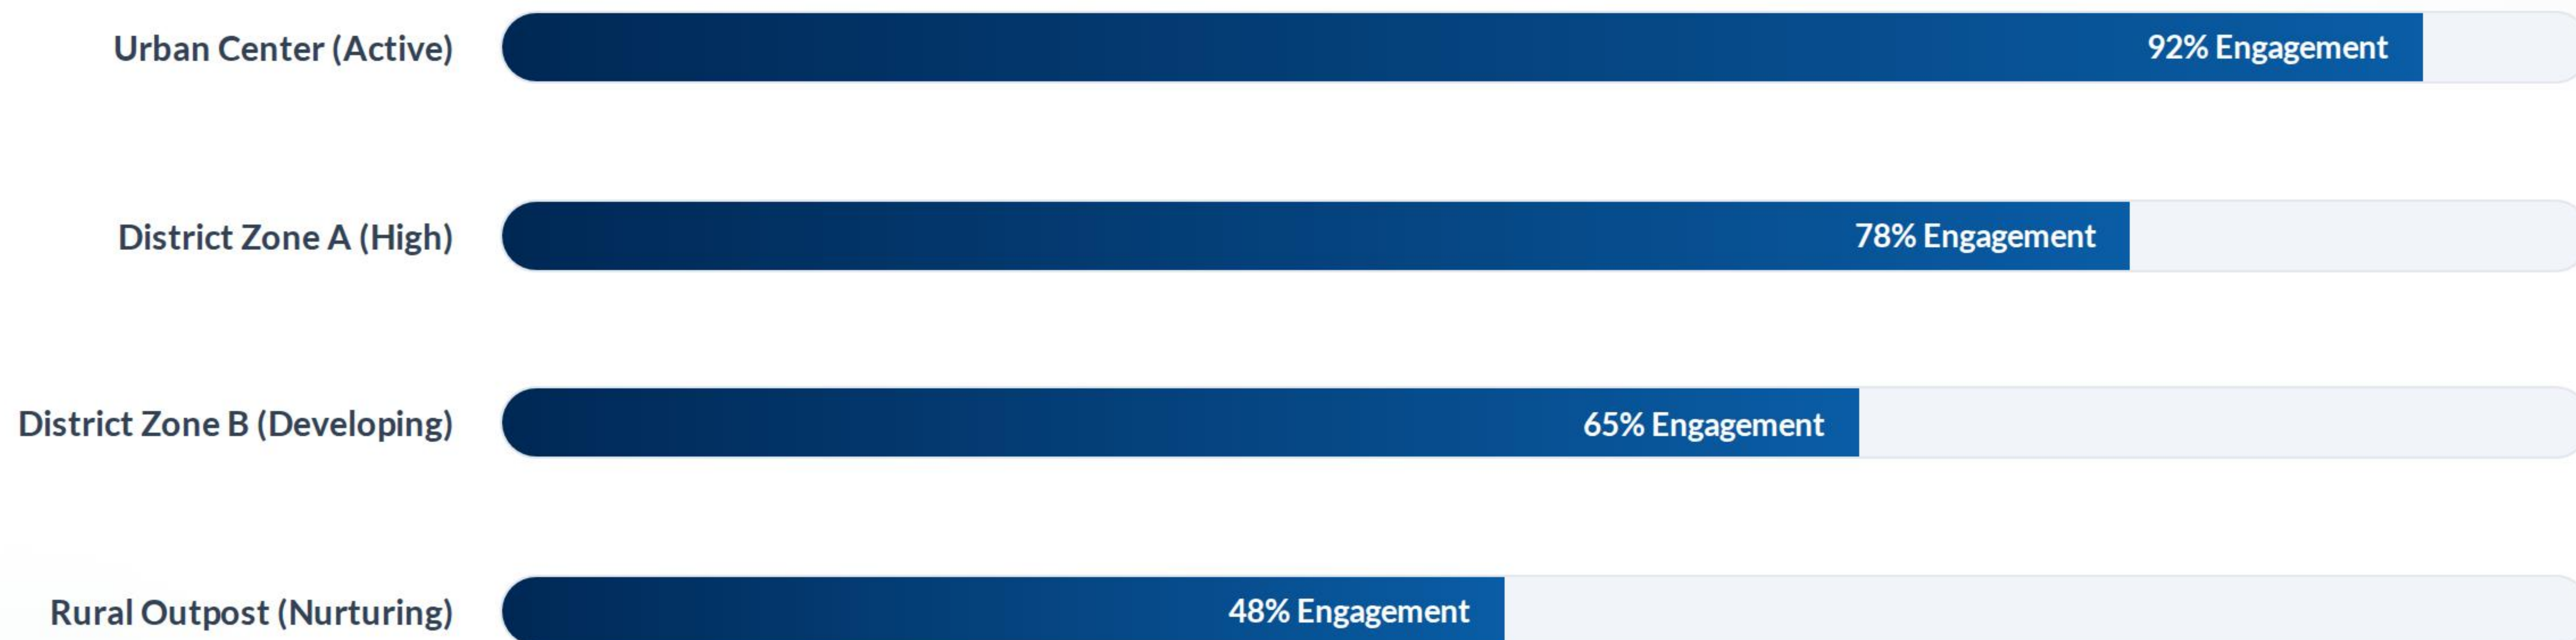

100%

Automated Request Pipeline

Streamlined Booking & On-demand Tracking

Facilitates friction-free scheduling of academic, career, and parent counselling meetings. Includes an interactive admissions module supporting stream selections (PCMB, PCMC, Commerce) alongside specific student requirements such as residential hostel facilities and targeted coaching programs (NEET/JEE).

Regional System Engagement

Unified performance overview tracking weekly active student profiles, learning resource consumption, and regional stream preferences.

Enterprise System Security

Content Lifecycle Control

-  Centralized verification workflow for resources.
-  Master scheduler governing calendar releases.
-  Granular role definitions restricting database edits.

Student Data Protection

-  OTP based authorization for trainer profiles.
-  SSL-encrypted tunnel operations across devices.
-  Systematic automated daily cloud backups.
